Subject: Routes at Carron; mtb placing in 'wider' funding pic

Angela -

To confirm for today's meeting, I (ie Scottish Lowlands FD) see the building of mtb trails as an integral part of the rec development of CV. CVDG is a key partner in any funding bid, but that funding bid will consider other aspects of rec eg extra trails aimed at walkers, interpretation, signage for all, parking, viewpoints, amenity improvements of the forest edges, etc etc. The Council partners may well want to include works outside FC land, but that's up to them, and would be part of the final package. Mark Forrest said last month that NLC is prepared to write up the bid, and manage finances if successful.

Richard -

The routes indicated on your maps sent last week seem OK; delay in my response is because they have not been formally checked against plans, but there is nothing inherently problematic. Pl go ahead with investigations with Paul next week.

Thanks
