**Subject:** RE: Carron Valley lft

All - Anne will send me three versions, one with white arrows on red background, one with red arrows on white background, and one of red arrows. As you know red-green is the most common colour blindness and far more males than females have it. I'll test the 3 versions on a colour-blind colleague here & we can go with best. The red arrows on a green forest background may be invisible to him. That will be done by end next week.

Pl send the various logos to me & I'll forward to appropriate person.

Thanks

Rena

I'll just shortcut this:

The sample map I have here has 2 types: black arrows and also white arrows within a blue rectangle which also has a white lined border. The latter are more obvious in my opinion. Unless there was another draft of this map I'm assuming these are the choices to which you allude? Also, the signage / way markers are now in-situ and we have red arrows on a white background for these (throughout all trails.) Do Red arrows within a white background work? Or just, red arrows? As far as I'm concerned black or red arrows work. I'm not troubled whether they are within a background or not so please go with whatever you judge to be the best Anne.

As Richard indicated, the whole Trail is graded red so that answers your second question.

Thanks

Niall

Subject: RE: Trail names - Carron Valley lflt

Hi Anne,

Thanks for the e-mail, I'm afraid I've been out of touch for the last fortnight due to work (just in from a 7am start and I'm back out tomorrow at 7am!) - I've got a few things that I was meant to pass to Rena that have also been missed - the Funders' Logos - I'm hoping to have all these by tomorrow so will get them sent off tomorrow evening (sorry, I can't get them sooner than that).

I was at the meeting that Rena showed us the maps - I'm afraid I can't recall which arrow we selected. The trail is being graded as Red so I think it would make sense to colour the whole route Red - Rena are you happy with that?

My outstanding work is to get the Funder Logos to you, Rena can you provide a FC Scotland logo as I can't locate one on the website anywhere? I will get in touch with David Lewis and Niall Thomson to ask if either of them remember which arrow style we had selected. Once Niall or Dave get back in touch with me, I'll get back in touch with you regarding the arrow design.

Thanks,

Richard.

Rena/Richard,

Thank you for the things you have recently sent.

I received paper maps from Rena this morning, one of which shows the one-way sections of the routes. However, I still need an answer to the question of which type of arrow you would prefer us to use to show the one-way system - these were shown on the draft maps that I previously sent to Rena with a request for a decision on the arrow type.

The other thing that has not been answered is the question of the colours that are to be shown for each route - do each of the routes have a different colour of marker on the ground, or are you wanting them shown with the 'grade' colour (Green - easy, Blue - moderate, Red - difficult, Black - severe). If we are to use the grading system, you will need to tell me the grades for each of the three routes.

Sorry, but if we are to get the maps sent off to Sarah Price soon, I need a fairly quick answer to these questions. Meantime, we will do the changes to the small location map. I will then send you another set of draft maps for final approval before I send Sarah the final version.

Regards,

Anne

Anne

After a huge long silence, I now at last have the trail features names, for you to add to the shape file in attached email. I've been reminding the mtb Club to provide names for ages, but it's taken this long.

The edited location map is in the post today.

Pl copy your next version to Sarah Price in DIS, so she can work on the lflt. I'd like to get the lflt to the printers mid-Feb - the Club are keen to open the trails early March.

Thanks

Rena
