Parliament

To Whom It May Concern

Carron Valley Development Group

I am happy to support the Carron Valley Development Group in their application for funding.

The Carron Valley Development Group is an excellent organisation run by enthusiastic volunteers who are wholeheartedly committed to the project. They have already raised thousands of pounds towards building mountain bike trails in Carron Valley. The project to develop mountain bike trails is recognised as a major success story. They have developed an excellent facility which promotes healthy activity and is used by enthusiasts from all over Scotland.

The Carron Valley Development Group work in partnership with the Central Scotland Forest Trust, the Forestry Commission Scotland, North Lanarkshire Council and Stirling Council and together they have provides a facility which promotes healthy exercise and is good fun for all the participants. The CVDG have also involved local groups and organisations in their development plans.

Yours sincerely
