Richard

Please see email from Alex from the Kilsyth Community Council for linking our websites in unholy matrimony! It sounds like we need to formally request a letter of support, although I thought they had agreed to do it at the last meeting. Do you want me to get back to him, I was going to email Margot anyway to thank the CC for their time and letting us come along to their meeting. Perhaps we can also ask them to consider if there is anything further that they would like to see in any future development, of course, no promises.

If anyone has any suggestions on any other way to involve the Community Council, please let me know.

I will of course invite them (informally) to the open day.

Cheers
Angela
