No counters - and no surprises there in my opinion

I thought it was essential we met KB "to find a solution" after all this broo ha about the Red trail? I must admit to becoming increasingly confused and frustrated by all this.

Thanks Niall, contacts are the most important thing, I trust Mr Stoddart is keeping well and not falling off his bike particularly on FC ground. I would be interested to see their trail counter date?

See you at mid day, Karl is not available and I now have a meeting in the morning.

Jeremy.
