CVP Agreement and  
Dev Plan Jun...

David/Niall,

Here is my take on the agreement/plan. You'll see why it took me so long to reply

I specifically raised a number of issues in my reply to Brent, including the FCS/SW veto; the new requirement for the PID process being implemented, (which wasn't my understanding from [REDACTED] or earlier discussions); the agreement still being one sided in favour of FCS, (against Hugh's views); the need for and ability of FCS to lead on all projects, and the lack of detail on the Plan, suggesting a table listing all projects, costs (where known), timescales, etc. would be better, and would allow the Board to approve all proposed projects, dependant on funding etc. being in place.
